5 out of 5... 77 (73.3%)

QUESTION 5. Thank you for attending the symposium! Anything you would like to communicate to us? 26 responses

- Thank you for offering this opportunity
- Everything was excellent! Congratulations to everyone
- How about making it a yearly event?
- It was a great opportunity to participate in this event!
- Maybe more time for questions could be provided because a lot of them were very interesting and aided in deepening the conversation surrounding the subject, but in cases there was not any more time for questions.
- Thank you very much for the great opportunity!
- A great initiative that should be continued, may be with a better advertisement next time (for example, at the Faculty of Russian Language there wasn't any announcement. I heard about it by chance...)
- It was a very interesting symposium with thought-provoking presentations! The only unfortunate thing was that I could not attend the early morning presentations due to work obligations and sadly some of the talks that I missed were the ones I was the most interested in.
- I understand this was an opportunity for certain MA students to present their topics.
- I enjoyed the symposium truly. ...
- It was a unique opportunity to learn more about translation through the collaboration of other universities and Phds students!
- A very interesting, well organised symposium!! Congrats!!
- A certificate of attendance would be appreciated.
- It was a great opportunity for all, thank you. Since I only attended less than half of it, maybe I should not be rating the research awareness above...
- Congratulations on a great idea! More please!

- Everything was well organised. I hope I'll have the chance to attend another symposium in the future!
- Congratulations!!! It was a great idea and you did a great job organizing it!!!
- It was a very pleasant surprise and I appreciated the friendly non - stressful environment! Not to mention the very interesting talks! Thank you very much I hope that more events like this take place in the future.
- Some parts of the symposium were most interesting for me and I would love it if we could say a few more things and analyse them a little bit more. However, I can understand that it was already long, so in order for more time to be devoted in each theme maybe there could be less of them. In any case the whole event was great!
- Fewer talks would make the symposium less tiring.
- It was an enlightening symposium. I would really love to attend a similar one in the future.
- Thank you very much for this opportunity!
- Great initiative! Congratulations to all!
